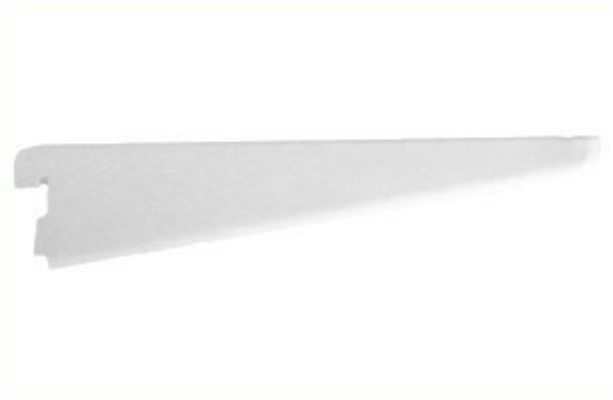
# 310.2701.37

Shelving Bracket for Twin-Slot Shelving System

Making Ironmongery Easy



## Product Specification

The Twinslot Shelving system is designed as a simple 'upright & bracket' arrangement, for supporting various types of timber shelves

Suitable for use in both domestic and retail applications
Fabricated from 1.5mm thick steel and finished with an Antimicrobial powder coating to prevent growth of bacteria, mould and fungi on the surface
