Our new UG sliding glass door system, which covers a wide range of applications and includes options such as soft-close and synchro-opening/closing.

- EN 1527 approved - tested to 100,000 cycles ensuring long durability with silent movement
- One adjustable screw for +/-1/8" (3.5mm) height adjustment and the anti-falling in front system
- A single track that is suitable for wall, ceiling and glass mounted applications
- Made to measure carriage and track length, cutting options available

Create a sliding door system that suits each project requirement with our technical advisors, from a rubber stopper to hydraulic soft closing stopper or synchronized double door system, we are here to help. The UG sliding door system is ideal for a range of uses in offices, living spaces and pocket doors, designed with no visible clamping as the parts are hidden within the compact tracking.
