Borglocks BL2021 – Digital Lock with Back to Back Keypads

Product Specification

The BL2021 is one of our entry level models making up the 2000 series range. This particular variant comes fitted with keypads both sides, requiring a code to both enter and exit for situations where traffic flow can come from either side.

Each keypad comes with independent coding chambers, allowing different codes on either side should this be required. Each have over 8000 combinations and are independantly cycle tested to 50,000 operations.

This lock comes with a anti-thrust tubular latch that comes in three different sizes: the 50mm, the 60mm and 70mm backsets.

This model is ideal for light duty, access control solutions and is suited for internal wooden or composite doors
